

Within a few weeks now Draba, the smallest flower that blows, will sprinkle every sandy place with small blooms.

He who hopes for spring with upturned eye never sees so small a thing as Draba. He who despairs of spring with downcast eye steps on it, unknowing. He who searches for spring with his knees in the mud finds it, in abundance.

Draba asks, and gets but scant allowance of warmth and comfort; it subsists on the leavings of unwanted time and space. Botany books give it two or three lines, but never a plate or portrait. Sand too poor and sun too weak for bigger better blooms are good enough for Draba. After all it is no spring flower, but only a postscript to a hope.

Draba plucks no heartstrings. Its perfume, if there is any, is lost in the gusty winds. Its color is plain white. Its leaves wear a sensible woolly coat. Nothing eats it; it is too small. No poets sing of it. Some botanist once gave it a Latin name, and then forgot it. Altogether it is of no importance — just a small creature that does a small job quickly and well.

- Aldo Leopold, A Sand County Almanac 1949

Names follow Simpson et al. (2002). Vascular Plants of Lane County, Oregon: An Annotated Checklist. Eugene, OR: Emerald Chapter, Native Plant Society of Oregon.

FERNS & FERN ALLIES

Dennstaedtiaceae

Pteridium aquilinum var. *pubescens*

Bracken Family

Bracken fern

Dryopteridaceae

Athyrium filix-femina var. *cyclosorum*

Cystopteris fragilis

Dryopteris arguta

Polystichum munitum

Wood Fern Family

small flowered deervetch

Nevada deervetch

Spanish clover

riverbank lupine

white sweet clover

rancheria clover

branched rancheria clover

narrowleaf crimson clover

hop clover

least hop clover

woolly head clover

alsike clover

small headed clover

thimble clover

few flowered clover

red clover

white clover, Dutch clover

subterranean clover

white tip clover

tomcat clover

American vetch

bird vetch

hairy vetch

common vetch

smooth tare

Nemophila menziesii var. *atomaria*
baby blue eyes

Fagaceae

Castanea dentata

Quercus garryana var. garryana

Quercus kelloggii

Oak Family

American chestnut

Oregon white oak

California black oak

Fumariaceae

Dicentra formosa ssp. formosa

Bleeding heart Family

bleeding heart

Gentianaceae

Centaurium erythraea

Centaurium muehlenbergii

Gentian Family

common centaury

Monterey centaury

Geraniaceae

Erodium cicutarium

Geranium columbinum

Geranium dissectum

Geranium lucidum

Geranium molle

Geranium oreganum

Geranium pusillum

Geranium Family

filaree, stork's bill

long stemmed geranium

cut leaf geranium

shining geranium

dovefoot geranium

western geranium

small flowered geranium

Grossulariaceae

Ribes divaricatum

Ribes sanguineum var. sanguineum

Currant Family

straggly gooseberry

red flowering currant

Hydrophyllaceae

Hydrophyllum tenuipes

Nemophila menziesii var. atomaria

Nemophila parviflora var. parviflora

Waterleaf Family

slender stemmed waterleaf

baby blue eyes

small flowered grovelover

Hydrangeaceae

Philadelphus lewisii

Hydrangea Family

mockorange

Hypericaceae

Hypericum perforatum

St. John's Wort Family

Klamathweed, St. John's wort
